

SOLARIS POT HANDLERS

Quality Attachments, Parts & Customer Service

Rotating Pot Handler – EZ-0020

- The very specific design handles 45-200-gallon nursery pots. Its asymmetric arms allow the operator to load and unload easily
- Equipped with a release valve that adjusts the pressure down to 250 psi. This function insures a gentle clamp on the grow bags or the B& B stocks
- Operator has complete control on the tree. Its two 2.5" X 12.5" cylinders insure a powerful controlled rotation.
- 375 lbs.
- Must be purchased with a fixed or rotating base for a complete attachment

Square Pot Mover -- EZ-0025

- Fits all skids steers with universal quick-attach, 278 lbs.
- Must be purchased with a fixed or rotating base for a complete attachment
- Made of ½" steel, grade 80 or higher
- Can be adapted to excavator, wheel-loader, telehandler & backhoes

Double Pot Mover -- EZ-2002

- Fits all skids steers with universal quick-attach
- Must be purchased with a fixed or rotating base for a complete attachment
- Made of ½" steel, grade 80 or higher
- Can be adapted to excavator, wheel-loader, telehandler & backhoes
