

# SOLARIS HEAVY-DUTY EXCAVATOR LOG SPLITTER

*Quality Attachments, Parts & Customer Service*

Do you have a land-clearing jobs that required breaking down larger tree parts into manageable logs quickly? Or you may have a firewood processing operation that requires getting larger logs down to size efficiently without having to get in and out of the cab. Consider this heavy-duty 28-ton-force splitter which grabs a log from both sides. Then use the handles to grab the log and place it on a pile. Optional 360-degree rotator also available!

# SOLARIS HEAVY-DUTY EXCAVATOR LOG SPLITTER

QUALITY ATTACHMENTS

*Quality Attachments, Parts & Customer Service*

Our commercial-grade OMEF Log Splitter utilizes mini excavators and larger excavators (5-12-ton range) to handle large logs from both sides which applies blades from both sides to split the wood with hydraulic force. There are handles to allow the operator to lift pieces and pile them. As an add-on, we offer a rotator, so you are able to rotate the attachment 360 degrees without having to turn the machine, making it exponentially more efficient for wood splitting.

<b>Solaris OMEF Hydraulic Heavy-Duty Excavator Log Splitter</b>	
<b>Excavator Weight Range</b>	<b>5-12 tons (11,000 lbs. - 26,500 lbs.)</b>
<b>Tool Weight</b>	<b>771.6 lbs.</b>
<b>Maximum Opening</b>	<b>23.62 in.</b>
<b>Min-Max Pressure</b>	<b>2900 - 3626 psi</b>
<b>Min-Max Hydraulic Flow</b>	<b>10.5 - 21.1 gpm</b>
<b>Split force at 3480 psi avg.</b>	<b>28 tons</b>
<b>Height</b>	<b>43.7 in.</b>
<b>Length</b>	<b>44.1 in.</b>
<b>Width</b>	<b>13.8 in.</b>

#### APPLICATIONS

- Land clearing
- Forestry
- Heavy- Duty Log Splitting
- Available with Optional 360-degree rotator
